MORROW CO. MAN KILLED IN ACCIDENT

Truck Swerves Into Ditch and Wheel Runs Over Driver's Head

Special to The Star

MT GILEAD Aug 27—Ernest Hauger 21 of near Utica was killed Wednesday afternoon on the [illegible] highway one mile south of North Woodbury in Morrow county when the truck he was driving swerved into the ditch throwing him from the open seat to the ground. One of the wheels of the truck ran over his head.

Hauger was driving a truck without a cab. He was employed by Goodwin and Smith who have a [illegible] contract with the contractor who is building a new [illegible] route 42 between [illegible] and Johnsville.

Hauger started to Fredericktown with his truck empty and was following two other empty stone trucks also returning to Fredericktown. He passed one of the trucks and was attempting to pass the other which was driven by his employer H A Smith when he lost control of the truck and was thrown from the open seat. The truck went into the ditch and one of the wheels ran over his head. He was killed instantly. His body was found lying about 20 feet back of the truck [illegible].

Sheriff F J [illegible] and Coroner Dr T C [illegible] were called. The body was taken to [illegible] at Johnsville [illegible] the Craven funeral home [illegible].

Committees Named for Marion Exhibition of "Science Circus"

Above is pictured the General Motors Parade of Progress being prepared for exhibition by its large operating crew. The photograph shows the exhibit halls being built of the huge streamlined trucks of the caravan with the big [illegible] tent seating 500 in the background. There is no admission charge to this world's fair on wheels.

* * *

Final committees have been selected to complete arrangements for the free General Motors Parade of Progress which will fill a three day engagement in Marion next week starting Tuesday at the Central Junior High school grounds.

Mayor Frederick C Smith general chairman will be assisted by the following committees: parade Carl Danner and Fred Haberman; [illegible] civic cooperation [illegible] D P Owen and [illegible]; publicity G[illegible]; [illegible] dealers cooperation [illegible] L M [illegible]; [illegible] Robert Ma[illegible].

The Parade of Progress is an exhibit of automobile parts as well as [illegible] the wonders of science and research in an interesting and entertaining fashion according to those in charge.

Thousands have seen the exposition in the area other Ohio cities where it has been staged and patrons are urged to attend the afternoon performances in order that the night crowds may be accommodated.

The committee members and other Marion industrial leaders will be guests at a preview and dinner in Mansfield Friday night.

Provisions of Ohio's New Motorists' License Law

Note—This is the [illegible] articles concerning [illegible] motorists license law [illegible] the Associated Press [illegible] West state registrar of [illegible]

By FRANK WEST

(Written for Associated Press)

[illegible] O Aug 27—Under [illegible] Ohio's recently en[illegible] license law which [illegible] the 37th requiring [illegible] be license—all [illegible] operators must ef[illegible] obtain either an [illegible] chauffeur license [illegible] licenses at all time

[illegible] under the new driv[illegible] law carries a fine of [illegible] than $500 or impriso[illegible] more than six [illegible] both

Temporary instruction permits will be issued without charge to persons who are learning to drive or who have not had a year's one year driving experience. Such permits authorize the holder to operate a motor vehicle for a limited time when accompanied by a licensed operator who is actually occupying the seat beside the driver. At the expiration of a specified time as shown on the permit the permittee will be eligible to and shall undergo an examination made by the state highway patrol to determine fitness for driving. If the applicant is qualified application for a license may be made.

The total cost of an operator's license is 40 cents the total cost of a chauffeur's license is 90 cents.

Licenses must be obtained in the county of the applicant's residence from a deputy registrar appointed to issue them. No chauffeur's license may be issued to any person under 18 years of age.

Application for an operator's or chauffeur's license made by any person under 21 years of age in addition to being signed by the applicant must also be signed by the father if living and has custody otherwise by mother guardian or other person having custody. Applicants who are over 18 years of age and who have had at least one year's driving experience upon application will be issued licenses without examination.

All persons under 18 years of age and all persons who have not had at least one year's driving experience will be required to undergo examination conducted by the state highway patrol which will include a general knowledge of the motor vehicle laws with particular emphasis on safety, a test of the eyesight and an actual driving test. Such examinations must be conducted in the county of the applicant's residence. The state highway patrol will arrange a schedule to conduct the examinations in the various counties on particular dates. Realizing that approximately 500,000 will be required to undergo examinations before being eligible to obtain licenses and that there are only about 100 highway patrolmen available to conduct such examinations it is apparent that such a tremendous job if performed properly can not be done overnight.

It goes without saying that the state highway patrol is the logical law enforcement body to conduct such examinations. The work will be done efficiently and as speedily as possible under the circumstances. The public is asked to be patient as efficiency will not be sacrificed for the sake of speed.

HEAD for the mountains if you want to. Pick the lakes, the shore, the cool north woods

But if you want a *permanent* answer to the problem of keeping cool—you'll go in one of these spirited Buick SPECIALS, and be comfortable all the way!

When it can't find a breeze—it makes one. It won't stutter, stall or get steamed up on the toughest hill or in the hardest going

It's calm—cool—collected in all its going—takes things easy and lets you do the same.

And it's big enough to provide both leg room and elbow room for all—on hot, stuffy, muggy days there's no sticky proximity with others to remind you of the heat

Surest way to keep cool this summer is to choose this sweet-running, quick-stepping, easy-handling Series 40 Buick. When you hear how little one costs, fully equipped and delivered, you'll be hot and bothered till you get one

[illegible] the wreck [illegible] product in [illegible] better heart about plants being [illegible] out [illegible] This [illegible] while [illegible] the [illegible] of decentralization there have been considered at [illegible] Seldom however have the threats or rumors materialized in connection with large companies

But now the expected has happened As the climax to three months of labor trouble the Remington Rand Co has announced its plant in Norwood a Cincinnati suburb will be shut and its operations shifted to other company plants in the east There is a very slight chance a company attorney has said that the adding machine unit at Norwood employing 100 will be continued but the rest of the plant normally employing 1 600 definitely will be closed

It is not necessary to go into the pros and cons of this particular management labor dispute to realize something extremely serious has happened Approximately 1 600 workers will lose their jobs because spurred on by real or imagined grievances they or their leaders have refused to accept any compromise

Some other city and some other workers will benefit but such a reflection will not aid the Norwood employes If some unreasonable labor leaders are responsible for the impasse which obliged the company to make its decision surely they have cause to regret their stubbornness If the desirability of cooperation and understanding of mutual problems between management and labor needed to be dramatized closing of the plant at Norwood should serve that end

"Codes" Must "Stob"

Habitual sufferers from the common cold will hail the news that the Medical Society of New York state is trying to do something to help them

For the second year in succession the society is gathering information throughout the country and preparing to release weekly health bulletins designed chiefly to aid the victim of sneezes and coughs As might be expected dietary instructions bulk large in the preliminary advice the society has issued Foods all the way from macaroni to milk are recommended for building the body health with which to resist colds

Advice on how to stop those codes however could not be without its humorous side issues One such is the admonition to parents that too much catering to a child's appetite is incorrect According to the doctors refusal to eat should be met by termination of the meal also variety of diet is unnecessary and undesirable

Inevitably the old question of to spinach or not to spinach appears to be involved in this issue Legion are the parents who could testify that taking away of the beef steak or withholding of the lemon cream pie frequently does not cause an increased consumption of spinach or some other item verboten by the childish taste Instead such reprisals often start little wars Not infrequently mother's resistance is weakened by a cold that is sapping her will power

Maybe the doctors will get further by concentrating upon making parents healthy

Somebody Else's Business

Outsiders who did not contribute to Old Age Revolving Pensions Ltd have little right to feel indignant about the financial affairs of the organization as they now are being exposed at Cleveland But as well as having an interest in a movement which attracts such financial and political support of a large number the outsider can't help being curious He wonders what will be the outcome of [illegible] public [illegible] OARP [illegible]

It is [illegible] at the point on which [illegible] would like to be reassured is that President Roosevelt must as far as humanly possible refrain from making political capital of this visit Circumspectly his speaking and weighing his words he must seek to convey the impression that he is concerned with the problem before him as the chief executive of a great nation not as a political leader seeking reelection The issue of relief aid to drouth stricken farmers for instance is fraught with pitfalls

On several occasions by making dramatic appearances unexpectedly the President has caused persons to comment freely upon his political astuteness In undertaking this drouth trip and arranging to meet Gov Landon it will be his responsibility to prove his intentions are non political if that be possible

Conquering Hero.

While the country wonders what he will do next—when how and if he will go professional—Clevelanders are certain their Jesse Owens is a hero

With a parade city hall reception and presentation of an inscribed watch the lakeside city welcomed home its distinguished citizen Jesse may turn professional he may be under an official ban for refusing to continue a running campaign but he's just a hero to his fellow Clevelanders

Persons who concentrate on the serious things in life may arch their eyebrows over the hubbub surrounding a mere athlete—but most Americans are not surprised Jesse Owens member of a race that does not always get the best chances has brought world acclaim to his country and race A clean liver and hard worker he is more than entitled to his day in the sun

Another World Record

A few weeks ago Nebraska crashed into the news through the report it was the only state in the union without a debt and with a cash surplus Some observers applauded and entered the incident in the book of miracles some more skeptical tried to explain away the phenomenon by reference to the federal funds which have been poured into the state

But the miracle no longer can be denied State Treasurer George J Hall reports a unique problem the treasury has too much cash on hand In the last 10 days for instance the cash balance increased from $8 447 507 to $9 827 000 Now Mr Hall is faced with the fact that banks do not want state funds They have more money than they can use

A constitutional provision making it impossible for the state to acquire a debt of more than $100 000 has obliged officials to adopt a pay as you go procedure Whatever the reason for Nebraska's what-to-do-with our surplus cash embarrassment this clearly seems a case for the Olympic committee to decide Has the state established a new world record or did it have an enabling wind that will disqualify its claim?

Read While You Wait

While inmates of the Southern Michigan prison wait for the gates to the outer world to open for them many of them spend most of their available time reading Understandably the librarian reports they read more books dealing with law and crime detection than of any other type but they do not restrict themselves to such fields

Like most normal groups the convicts read about twice as much fiction as non fiction detective and western stories are their favorites among the magazines But when they settle down to the non fiction reading many of them tackle serious works on [illegible] philosophy sociology natural [illegible] literature

[illegible] perhaps is the fact that [illegible] of books is a [illegible] practice listed [illegible] correspondence school [illegible] 330 [illegible] the prison

Utah Certain To Go for Roosevelt

State Gets in on Ground Floor of Federal Spending Strong Political Organization Built Up

BY DAVID LAWRENCE

Copyright 1936 by The Marion Star

OGDEN Utah Aug 27—Tr[illegible] to [illegible] It is virtually conceded by well informed persons in both parties though a reduced majority over [illegible] ago when Mr Roosevelt carried [illegible] by 60 [illegible]

Why is Utah so pronouncedly pro-Roosevelt when it has been known for such a long time as a Republican state The reason [illegible] find in the [illegible] through a [illegible] political [illegible] in distributing public funds [illegible] weather man [illegible]

Metals are up in price [illegible] going at [illegible] capacity wool is up in value and the [illegible] market is good to say nothing of the price [illegible] is specially and [illegible] For there is only a small drouth area in Utah whereas most of the state has had almost an excessive amount of rain

This was one of the first states to get in on the federal spending and [illegible] political organization going to take advantage of the federal activities [illegible] voluntary tax on the salaries of [illegible] federal office holders in the state [illegible] per month and [illegible] Democratic organization purposes They have control of the jobs in [illegible] the agencies and have managed [illegible] the Republicans on [illegible]

* * *

The political aspect is so [illegible] that even when the national emergency council had a meeting recently of all the federal agencies in the state for purposes of coordination there were present the Democratic state chairman and the secretary of the Democratic state committee and their names are officially listed in the proceedings

Notwithstanding the seemingly prosperous condition and the fact that recovery is supposed to be here the federal government is spending per month about $600 000 for WPA A prominent Democrat nevertheless told me he had trouble getting labor for his farm and that there is a shortage of skilled labor in the state It seems agreed that as long as the WPA is in existence there will be difficulty getting workers on private jobs the federal competition on the wage basis is indeed affecting the state's own projects

The state of Utah has received about $70 000 000 in federal money in the last three years of which about $27 000 000 represents an outright grant and is not repayable Yet many of the projects represent improvements which will benefit only the people of the state of Utah

In the face of all this stands out the fact that Utah has in its state treasury a surplus of $7 000 000 accumulated since 1933 and that it has cut down its debt during the last two years by about $2 300 000 It has employed various kinds of taxes which clearly proves that from a taxing standpoint there has been plenty of potential revenue from which the federal government over a period of years might have had repaid to it directly some of the sums spent in Utah

* * *

As it is the federal income tax collections in 1934 from Utah were $1 138 582 and in 1935 they were $1 929 398 The federal government is spending virtually every two months here for WPA a sum equal to the federal tax collections for a whole year

Last April the total WPA workers numbered 17 000 It is still around 10 000 If you ask Democrats and Republicans alike when they think private work will absorb these persons they pessimistically tell you that it will never happen until WPA is abolished And of course this will not happen until after election because there is too much political value to the new deal in continuing the spending This is not the comment of partisans It comes from citizens including many who are going to vote for Mr Roosevelt

There is no mystery why Utah is going to be for Mr Roosevelt on election day Federal money and high drouth prices have produced a prosperity and whether or not it is artificial or temporary it will carry to election day As for the suggestion that some day the federal bill will have to be paid in increased taxation there is little thought given to such a contingency as the population is relatively small and it is said that there aren't 315 persons in the state of Utah whose entire assets are worth $100 000 apiece Somewhere in the more populous areas of the United States the question of who is going to pay may be getting concrete but not as yet in Utah

Behind the News

Men and Affairs Under The Washington Spotlight

BY PAUL MALLON

WASHINGTON Aug 27—About 70 000 000 persons were of voting age at the time of the last presidential election Only 47 000 000 went to the trouble of registering so they could vote and only 41 000 000 actually voted This was 62 per cent of the eligibles the highest percentage of all time Only 50 per cent voted in 1920

What these figures emphasize to the practical politician is the necessity of organization Political organizations get their voters registered and deliver them at the polls on election days

The non organization voter may have had the croup on registration day or may developed something like that on election day but the organization voter will be at the polls rain or shine headache or not In politics organization counts

Start

Chairman Farley has spent five years building what is generally believed to be the best organization in the history of American politics It reaches down from the White House to the policeman on the beat just as did the old Republican organizations but it is better financed has more direct and indirect beneficiaries on the rolls

Chairman Hamilton took over 60 days ago a skeleton Republican organization only partly rebuilt His reorganized headquarters has been functioning only for about 30 days During that time the vastness of the problem of organization and the importance of it are said to have impressed all who are working on his side

While the Democratic headquarters expanded for the campaign only by taking on people at the bottom Republican expansion at the top has developed growing pains The result is the Republicans have been having a hectic time trying to catch up in technical routine This tells the story of the current political situation better than any poll could

As an example of Democratic organization progress a certain federal official in Washington notified the national committee here the other day that he had registered in his state and was preparing to vote Two days later he received from the committee complete instructions of where and how to vote what the state laws were how long the polls were open what trains to catch to get there etc

Friendliness

The announcements indicated that all President Roosevelt and Senator Glass did was to exchange knock knocks and that really was about all Afterward the caustic Virginian slipped away from the question whether he would make any speeches for Mr Roosevelt by saying he had not been asked The answer is he won't be

As every one here knows there is not much Glass could say on the stump His views vary from administration policies in so many particulars that what he would be willing to say might not be effective A newsman observed that the senator had made the best speech on either side in the last campaign in defense of sound money and budget balancing

Senator Glass murmured his thanks whereupon the newsman then asked Why don't you make the same speech again?

The Virginian's response was to the effect that he did not think they would want that speech again

About all the new dealers can do with Glass is to promote the appearance of personal and political friendship The White House meeting was arranged for that purpose All Mr Glass would talk about later was the newsman who wrote that Glass had emphasized the word professed when he introduced Mr Roosevelt as a professed Jeffersonian Democrat at Monticello recently Glass convinced his hearers there was nothing subtle in his choice of word by pointing his arrowed finger out ward and asking

You wouldn't think there was anything wrong if I introduced you as a professed Christian would you?

Forgery

The Democratic national committee is said to be willing to give a Roosevelt nominator button free to any one who finds out who sent that telegram to Congressman Blanton and signed Chairman Farley's name

One suspicion is that Blanton sent it to himself or had a friend do it as he is the only one who would benefit by a Farley indorsement delivered on the day of his primary Another story is that some one at national headquarters sent the telegram that the great ghost Mr Michelson discovered it next day and had Farley deny it after most of the citizens of Blanton's Texas district had voted

The truth seems to be the [illegible] son of a Democratic congressman did it as a more or less practical joke while experimenting personally with the problem of [illegible]

Utilities Go Forward [illegible] Baiting" by Gove[illegible]

BY MERRYLE S RUKEYSER

(Reprinted from The [illegible] Herald and Examiner)

On a vast scale the people appear to be [illegible] nation wide experiment [illegible] mine the extent to which business baiting can [illegible] economic progress

The power and light [illegible] seems to be the pa[illegible] more of this administration [illegible] spite of disparagement [illegible] made obstacles it is [illegible] ward and is straining [illegible] to make more rapid pr[illegible]

Political policies aff[illegible] utility industry and als[illegible] metal markets have be[illegible] tain of the heavy ind[illegible] cluding copper mining

I asked Cornelius F Ke[illegible] dent Anaconda Copp[illegible] company what factors [illegible] a resumption of purc[illegible] copper in normal an[illegible] public utility industry [illegible] the time for such a cha[illegible] ley is approaching

Power Output High[illegible]

The executive said [illegible] standing the unfavorable [illegible] of adverse legislation against holding compan[illegible] [illegible] tax burden [illegible] rate reduction the [illegible] industry upon the who[illegible] a rapid recovery from depression status

The kilowatt hour [illegible] electrical energy ha[illegible] past few months exceede[illegible] previously established rec[illegible] It is certain that what[illegible] be the ultimate legis[illegible] the financial result obt[illegible] the corporate units of the the demand for light a[illegible] will increase and will ha[illegible] satisfied

The growing dependence [illegible] dustry upon public ser[illegible] power the increased ho[illegible] sumption of electricity [illegible] sion of rural electrific[illegible] the rapid progress being [illegible] the field of air condition mean increased installation erating equipment and di[illegible] system and this means in[illegible] use of copper

Demand for Copper

There is present evidence [illegible] increased utility buying to [illegible] actual necessity The increa[illegible] the amount of copper purc[illegible] during the first six months o[illegible] year for electrical installat[illegible] distribution exceed over the six months of 1935 by a [illegible] larger percentage than did [illegible] creased purchase of copper [illegible] the same comparative period [illegible] other purposes

If and when the legislat[illegible] political attitude toward the [illegible] ity industry permit the re[illegible] tion of large scale financ[illegible] rapid and broad extension o[illegible] ice and of the purchase of [illegible] therefore may confidently be [illegible] pected

Building Adds To Demand

My next query was To [illegible] extent is your industry bene[illegible] from a revival of new cons[illegible] including public works?

Mr Kelley said

While undoubtedly public [illegible] has to some extent benef[illegible] industry the policy which governed the expendi[illegible] been to furnish as much [illegible] employment for labor as po[illegible] rather than for the purcha[illegible] materials to go into cons[illegible]

Consequently industries [illegible] the copper etc have pro[illegible] fited directly in proportion to amount of money expended expenditures however resul[illegible] a general increase of purch[illegible] power and the copper indu[illegible] common with others ha[illegible] been benefited

gion that he be a real patriotic American citizen Mistakes have been made but the rank and file of the membership is of the finest in the land

The object of the Black legion is the preservation and perpetuation of our American ideals and social order We realize that our nation is unique and different from all others upon the earth and that in the changing orders of Europe and Asia there are many peoples who would tear down our political educational and religious structures and fashion them after the failures of the past as well as the present The marvellous growth of the legion with its last reported membership of 6 000 000 augmented by the increase of the last few months under the present persecution emphasizes the gravity of the hour

Deny Revolution Plot

The current report that the Black legion is to take over the United States government on Sept 16 could not be farther from the truth

Since the primary object of the Black legion is the preservation of our American civilization it necessarily follows that it is opposed to fascism nazism communism and dictatorships of all kinds and upholds free public school free speech free press the right of free public assembly the separation of church and state the Constitution of the United States and will oppose any organization or people who have other ideas and plans

was known as joint inventor with Theodore P Holt of the Holt Dern ore roaster and also as aiding in the development of a vacuum slime filtration process evolved by George Moore Dern was credited with putting both these appliances on a commercial basis

Born in Dodge county Neb Sept. 8 1872 the son of John and Elizabeth D Dern he graduated from Fremont Normal college when only 16 then worked in freight and lumber yards to earn money with which to attend the University of Nebraska in 1893 and 1894 There he played guard and captained the football team which won one of the early championship of the Missouri valley Those being the days of push and pull football brawn was one of the chief requisites for gridiron performance and young Dern had it He was just under six feet in height and usually weighed around 1 5 pounds

In the university cadet corps Dern played an alto horn in the band The commandant of the corps was Lieut John J Pershing and 40 years later the two were again associated when the amateur bandsman became head of the department under which the retired general of the armies had won world wide fame

Dern cut short his university career to accompany his parents when they moved from Nebraska to Utah There he got a job as bookkeeper with a mining company studied technical aspects of the industry in his spare hours and eventually became the concern's general manager In later years his business interests included mining dairying canning power and banking

In politics he made a mark as state senator for eight years then served as many more as governor before going to Washington

WORRIES OVER SPAIN WEAKEN POPE PIUS

Pontiff So Feeble He Can Hardly Rise from Throne Following Audiences

(Copyright 1936, Associated Press)

VATICAN CITY Aug 27—Prelates disclosed tonight that Pope Pius XI has become so weakened from worry over the Spanish situation that he scarcely is able to rise from his throne at the close of audience

The increasing heaviness of his limbs one prelate said might soon make it necessary for the 79-year-old Holy Father to be carried from one part of the apostolic palace to another

His brother Fermo suffered from the same malady and a year before his death several years ago was unable to walk

The disclosure of the Holy Father's condition came after prelates had announced the Pope assisted by all the cardinals now resident in Rome would soon preside at an expiatory ceremony in St. Peter's for the killing of priests and the destruction of churches in Spain

He also will soon receive Spanish bishops and priests who have found refuge in Italy and in addressing them protest to the entire world against the sacrileges of the civil war

DISSENSION, DEATH MARK SENATE RANKS

55 of Its Members Certain To Be Democrats Talmadge Fight Slated Sept 9

By The Associated Press

WASHINGTON Aug 27—Dissension and death have raised uncertainties in the senatorial situation in several important states but the Democrats nevertheless are fortifying the majority which is certain to be theirs in the next session

As it stood today with the renomination of Pat Harrison in Mississippi and James F Byrnes in South Carolina 55 certain to sit in January are listed Democrats A majority is 49

Barring a break in the solid south where most of the Democratic nominees are not even opposed the margin will be larger The Georgia primary in which Gov Eugene Talmadge will pit his anti new deal strength against Sen Richard B Russell Jr comes Sept 9 In addition the border states of Tennessee Kentucky and Oklahoma are among those now represented by Democrats which will elect again in November

States besides Georgia which have yet to select nominees are Colorado Massachusetts Michigan New Hampshire New Mexico and Rhode Island In New Mexico two seats are open

Of the 36 to be filled in all one is now Farmer Labor 12 Republican and the rest Democratic Of the 96 seats 70 were Democratic last session 23 Republican two Farmer Labor and one Progressive

to date mounting to twice the loss for the entire year of 1935 Chief McFarland said Part of the increase in damage has been due to the furlough of men who in the past devoted most of their time to throwing tarpaulins over furniture and furnishings to protect them from water damage

An example of water damage was shown in the recent Masonic temple fire in which the Monarch Printing & Supply Co estimated its damage at $5 000 largely caused by water Had men been available to cover the supplies this loss probably could have been held to a few hundred dollars Chief McFarland said

One Man on Duty

When vacations and leaves of absence due to illness are figured into the department's present schedule it is sometimes necessary for one man to serve alone at the West Side and Mark Street stations

Even when two are working firemen frequently have had to shut off a hose line to free themselves long enough to put up ladder Taking hose up the ladder without sufficient men available presents another hazard—Chief McFarland said it requires the efforts of three men to take a hose charged with water up a ladder

Referring to the Masonic temple fire again Chief McFarland said after he had called in firemen who were off duty at the time he only had 17 men working in such a way that three lines of hose could be used Had the previous force been available he said he could have had 30 men and seven lines of hose in use if necessary

When asked what the undermanned department would do if it encountered a quick succession of calls such as those that kept the previous force busy on several occasions in recent years Chief McFarland shook his head and said no plan can be worked out with the present force to handle the damaging series of fires that occasionally come almost simultaneously Our only hope is that we can get these men back on the job before one of those outbreaks occur" he said

Additional Duties.

In addition to fire fighting the department is charged with responsibility of maintaining 25 [illegible] of [illegible] the fire alarm system and 79 fire alarm boxes This work takes approximately 500 hours of work a year and requires the services of as many as three men following heavy storms when [illegible] are frequently [illegible]

LANDON HITS AT TAX LAW IN ADDRESS AT BUFFALO

Continued from Page One

upon it by an increasingly complex civilization

Now let us examine each of the four principles in turn

The first is the question of guarding and preserving the source of income Fundamentally this is a question of the fairness of the kind of taxes that are levied. Are they direct taxes levied according to our ability to pay or are they indirect taxes levied without regard to our ability to contribute to the support of the government"

Favors Direct Taxes

It has always been my belief that the government should raise the major portion of its revenue from direct taxes levied on the net incomes of individuals and corporations When this is done every one pays for his fair share and knows just how much the government is costing him I have constantly worked for legislation in Kansas to prevent concealment of the cost of government

On the other hand if the major portion of the government's income is obtained from indirect and hidden taxes—taxes upon such things as food clothing gasoline and cigarets—then the main burden falls upon those of small income and the cost of government is hidden In this case it is the wage earner the salaried worker the farmer and the small business man who have to pay most of the bill Now let us turn to the record and see just who is paying the cost of our government

What do the figures of the treasury department show? They show that in the year 1932 59 cents out of every dollar collected by our federal government was secured from direct taxes The other 41 cents was collected from indirect and hidden taxes paid for the most part by people with incomes of $25 a week or less

That was for 1932 Four years later what do we find? We find that 51 cents out of every dollar collected by the federal government came from hidden taxes In other words the share of the cost of government falling mainly on those with incomes of $25 a week or less has increased 25 per cent during the three years of the present administration They are paying far more than their rightful share of the cost of government Any housewife can tell you this because the housewife knows better than anybody else how the mounting cost of living is curtailing the comforts of the home And you can not long fool her with the pretense that only the rich will pay

Charges Extravagance

This increase has come despite the fact that the tax rates on incomes of individuals and corporations have been raised It has come despite the fact that they are paying far more actual money in to the treasury than they did in 1932 In other words the larger payments by well to-do individuals and corporations have not been enough to cover the waste and extravagance of this administration What is the result? Those of our citizens with small incomes have had to pay an increased proportion of the cost of the federal government

And just how have those with small incomes paid more? When we consider the government as a whole—federal state and local—we find that they have paid in a thousand different ways Take bread for example When we buy a loaf of bread for 10 cents we pay about 8 cents for the bread The other 2 cents go for taxes If we smoke a package of cigarets a day we pay $22 a year in taxes

So it is in all our spending We cannot buy a stitch of clothing without the government's taking in taxes a part of the money we pay out We cannot buy an ounce of food at our grocery store without being taxed to support the government We cannot go to a movie or to a baseball game or ride in an automobile without this invisible tax arm of government reaching out and taking a part of the money we spend This has been a growing tendency of government in recent years

Can't See Them

Most of these taxes it is true are hidden so deeply that we can not see them But the taxes are there just as truly as they are in the sales tax of gasoline They cost just as much and are just as real as they would be if they were taken right out of our pay envelopes These hidden taxes—federal state and local—amount to about 20 cents out of every dollar we spend In the case of the federal government alone they amount to over $5 a month for every family

It is in this way that the government's financial policies affect us as individuals The more the government wastes the more money it has to take from us The more it takes from us the less food and clothing we can buy for ourselves the less we have for the education of our children and the less we have left to set aside for meeting emergencies — for the building of homes for improvement of farms for the construction of factories In short every dollar that the government takes from us in taxes means just one dollar less for us—a dollar that we might use to buy things the production of which would create jobs

There is no better illustration of all this than the so-called surplus tax bill jammed through congress this spring

Can't Use Earnings

One practical effect of this tax law is to prevent a corporation from using its earnings in the business It must pay them out in dividends in consequence leaving no longer provide funds for making needed improvements for replacing out-of-date equipment and for additions to the plant,

Now what does this mean to a man looking for a job? It means less chance of finding work There will not be those jobs that come from the gradual growth of our small businesses from the replacement of equipment and from plant expansion

For those workers who already have jobs the effect of tax law is just as bad. Because of this legislation it is no longer possible for a business except at unbearable cost to build up a reserve for meeting future losses In other words a business organization unless it already has reserves is put on a hand to mouth basis This means that it can exist only so long as it can make a profit Once trade slackens to the point where the business cannot make a profit it is lost Not having a reserve to fall back upon its lot is bankruptcy and the lot of the workers is unemployment

There is one other point in this connection I would like to mention During the depression private industry paid out over $20 000 000 000 more than it took in—$20 000 000 000 that helped to cushion the depression and keep employees working This expenditure was possible only because of reserves created during prosperous years

Calls Bill Cockeyed

Yet by careless ill advised tax legislation this present administration is in effect forbidding a restoration of the reserves exhausted by the depression The sponsors of this tax law may have thought it was a smart way to appear to soak the rich Actually it has no relation to soaking the rich What it does is protect the big fellow who still has a reserve and tie a millstone around the neck of the little fellow

This legislation prevents the small business man from expanding by the usual method of plowing earnings back into his organization It is making harder and harder the reemployment of many of those at present out of work And it is jeopardizing the job of every man and woman who today is working for a business corporation This is the most cockeyed piece of tax legislation ever imposed in a modern country and if I am elected I shall recommend the immediate repeal of this vicious method of taxation

Let me add the revision of this bill is only one of the changes needed in our tax system Our whole tax structure federal and state needs overhauling

This leads us to the second principle which I have listed—that we must make sure that our government gets a dollar's worth for every dollar it spends By that I mean that we must get our money's worth for the taxes we pay We must not lose sight of the fact that it is our money that the administration is wasting

Some Approved

There are many cases in which it is quite obvious that the country as a whole gets more for the dollars spent by the government than it would if we kept the money and spent it ourselves I refer to such expenditures as are necessary to provide adequate protection to maintain our courts and to enforce our laws These expenditures are essential if we are to live in an orderly society They help us to maintain our political and economic liberties and to enjoy the fruits of our own labor

For these expenditures if they are made efficiently and with economy we do get a dollar's worth for every dollar we spend

Until a few years ago this type of expenditure made up the bulk of our federal expenses Under the present administration that is no longer true Today the administration is spending money for almost every conceivable thing It is spending even for the necessary things in ways we cannot afford—in reckless ways which are beyond our means—which would never appeal to anyone who has had to work for his money to anyone who has had to face the problem of making both ends meet—to anyone who has had to see to it that his bills get paid

The Republican party believes in being generous in the spending of money for relief and emergency purposes but it believes that these funds should be spent without waste and absurdities

Must Balance Books

This brings us to our third principle—that the government like the rest of us should not get the habit of spending more than it receives The present administration seems to have entirely disregarded this principle It is paying half of its bills with borrowed money The truth is we are living in a fool's paradise—far beyond our income

We all know this cannot continue indefinitely because we have known persons who have tried it We have seen them going along for a while with apparent ease buying first one thing and then another which they could not afford And then we have seen them wind up on the rocks."

Whenever a government continues to live beyond its income it will suffer the same fate For a while there will seem to be no end to the money which the government can spend But in due time the day of reckoning must come Someone sometime will have to pay the bill

How is it that the government has been able to follow such a will-o-the-wisp financial policy? It is because the public has not been properly informed

We have been told that all this extravagance will be paid for by soaking the rich" This is not possible The figures of our Treasury department show that if we confiscated all incomes in excess of $5,000 a year it would not be enough to pay for the cost of our federal government

Children Will Pay

Do not think that we have been getting something for nothing as the result of the huge government spending of the past three years Some of the debt it is true has been shifted to the wealthy but the major portion of the debt both the principal and the interest is being charged up against ourselves and our children There is no other group to whom we can shift the burden and it is a burden that gets heavier and heavier every day that the present wasteful policies of the administration are continued

The final principle the government must follow is to prepare for the rainy day In our own families we all recognize the importance of doing this and we try to build up individual reserves

In the case of the government the equivalent of these reserves is the ability to borrow It protects this ability by keeping its financial house in the best possible order

How does it do this? In periods of good times the government pays off its debts so that if necessary it will be able to borrow again It keeps its taxes as low as possible so that there will be a reserve of tax paying ability which can be called upon to meet emergencies It permits its citizens to prosper so that they will not have to go to the government for aid at the first breath of ill wind These are the policies to be followed in good times In bad times certain changes become necessary But a financially responsible administration never loses sight of the fact that it acts at all times as a trustee of the people

Should Watch Dollars

It watches every dollar it spends to be sure that it is used in the way which will do the most good It borrows no more than is absolutely necessary for it knows that if we exhaust our borrowing capacity today our children will be helpless should they be called on to face an emergency

In my judgment these are the common sense principles that our federal government should follow Unfortunately they are not the principles which have been followed by the present administration

In spite of the repeated assurance about a balanced budget—in October 1932 after the banking holiday in 1933 in January 1934 in January 1935 and in January 1936 what has happened?

The administration has continued to increase expenditures even for the regular departments and carry us deeper and deeper into debt The latest assurance volunteered only 13 days ago repeats the old story— Business is improving revenue increasing no new taxes will be necessary to balance the budget How can anyone really believe this in the face of the record of the present administration

It has piled deficit upon deficit

It has increased our public debt until today the total is equal to two-thirds of the annual income of every man woman and child in the United States

Hits at Spending

It has created an atmosphere of spendthrift generosity that has made it impossible for it to restore economy in government expenditure

It has acted as if it were willing to give the whole treasury away trying to enrich everybody by impoverishing everybody else

The time has come to put an end to these policies We must establish a system of simple honest bookkeeping We must return to the principles which follow in the handling of our own finances

This will give us a government able to meet every reasonable demand made upon it a government fully prepared to assume its increasing financial responsibilities a government able to meet the needs that arise from any emergency a government that will leave our children a fair chance to solve the problems that arise in their time.

That is the kind of government we must have if we are to get rid of unemployment by giving our workers real jobs at good pay I know that accomplishing all this is not a task that can be completed overnight, and I make no such promise We have huge responsibilities that we must continue to meet. But with the help of a courageous country it is a task that can and will be done That is my pledge to the American people

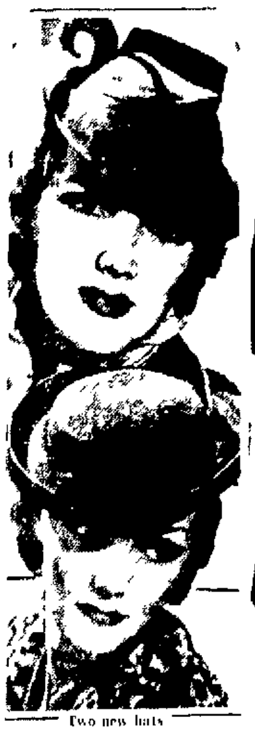
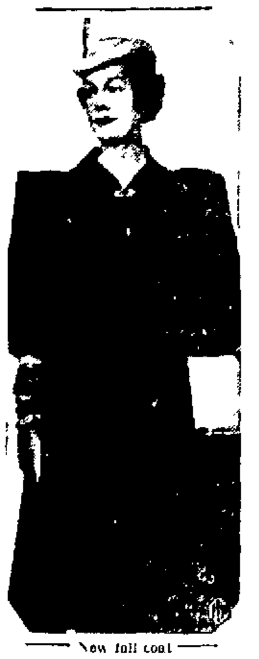
VARIETY MARKS FALL HATS



Two new hats



New fall coat

Miss Russell models

BY SUSAN BARDEN
Internationall News Writer

NEW YORK—A variety of even more unusual shapes show the style trend in hats for the fall but there are models for all types so it won't be difficult to find a hat that is both smart and flattering

The main trick in looking chic in the new hats is knowing exactly the right angle to wear them so be sure to get this settled when the fall number is purchased

After getting the hat question solved it is a safe bet that coats this season are very broadshouldered The hats and coats shown in the above pictures are perfect examples of what the well dressed gal will wear

Trick Crowns Shown

Elizabeth Russell has chosen a burgundy felt with a trick manipulation of the crown and a curled quill thrust through the narrow grosgrain band

The brim is cut wider in front and turns down over the coiffure in back This hat is a particularly becoming one for those who prefer always to wear a hat with a brim

Another of Miss Russell's selections boasts the shallowest crown in Hollywood It is of dark green felt with a bit of grosgrain ribbon encircling the crown next to the hairline A triple quill of red green and yellow made shiny with a coat of shellac adds a gay touch

New Coats Cut Full

The wide shouldered coat is grand for either afternoon or evening wear It is a copy of a Vionnet in black Antinea velvet Its winglike three quarter length sleeves and swagger fullness mark it definitely fall 1936

A diamond and ruby bracelet worn in the new fashion over the eight button Molyneux suede matches the pin worn at the neck line of the dress

The hat again shows the rolled brim completed this time with a veil and a jaunty upstanding feather

Married Comrades

BY ADELE GARRISON

Failure of Grandchildren to Write Disturbs Mrs Graham

AS LILLIAN'S shaped [illegible] head as I looked at her I realized that something beside household helpers' behavior was at the root of my mother in law's attitude toward me

Her demeanor was exceedingly familiar and one which I have experienced frequently It is one of great dignity which she invariably adopts when she considers that she has been slighted in any way or that members of the family their guests or their servants have not given her the consideration which she believes to be her due

But if it were not [illegible] what could be the matter? Only Lillian and Harry Underwood had been at home with her during Dicky's absence and mine and they are both favorites of hers skilled in humoring her

The trained nurse who was supposed to be in charge of my father? I had [illegible] my thoughts [illegible] mother Graham spoke again

"Have you seen [illegible] our mail yet Margaret?"

I was instantly on guard for there was that in the voice which told me that in the question lay the [illegible]

"No I [illegible] I didn't expect any letters"

"Well you have them nevertheless" she [illegible] her best martyr complex "[illegible] Where did you put them Katie?"

"[illegible] Katie"

Her voice changed from martyrdom to one inflected as a top sergeant's might be when addressing a particularly hopeless set of rookies

Katie [illegible] it perceptibly and her voice was meek and low as she answered

"I put dem right ofer here on bookcase" She gestured to the case across the room "Dey ofer here now"

"And it never occurred to you that Mrs Graham might like to see them?"

Her one was so lofty with sarcasm that Katie forgot to be commanding and made ventured to [illegible] her head and answer

"She only [illegible] coom" she mumbled "and I no tink"

"Get them now" my mother in law said explosively and the command propelled Katie across the room as if she had been rowelled

She took down several envelopes from the case and scuttling back [illegible] them out to me gingerly as if she thought I might suddenly develop a ferocity complex and strike her I took them from her with [illegible] wish that I could run away with them and mechanically began to turn them over in my hands to examine the superscriptions

Letters From Camp

There were four all from Laconia New Hampshire and I knew that Katherine had been careful to send them almost thirty miles away for mailing so that there should be no possible chance of anyone tracing their whereabouts from the postmarks

One was in Katherine's handwriting one in Mary's one in Junior's and one in Roderick's When I looked at the four envelopes all addressed to me I needed no clairvoyant powers to tell me why my mother in law was so angry

I did not know what to say and I snatched at the first banal utterance I could

"Why everyone at the camp has written to me" I said adding with an inane laugh "everybody except Williams and Baby Faith"

"Williams doesn't [illegible]" my mother in law said "[illegible] Baby Faith could [illegible] also have forgot [illegible] insignificant person [illegible] grandmother exists"

Irma miled to herself. This she ... ted was the secret of Blake's ... he didn't see much of ... If she spent a whole winter ... home he might be desperately ... o get rid of her and she pre... ed having him miss her.

And then too there was the question of her health. She in... ded to see Dr Freeman tomor... afternoon.

... e darted about the house ... ching hoping for signs of wea...

"This place is a sigh" she said with emphatic relish.

The whole thing had gone sour on Blake. He hoped that Dr Freeman would order Irma to Florida—or to Mars. Irma absence was ... e supreme luxury he would al... low himself even at the expense ... o h ... ovr necessity. He picked up ... her bags and followed her ... upstairs.

... ext morning Irma went ... n to see what they were ... ng this fall. Shopping was her ... and she had her favorite ... rls who greeted her with cordial smiles and sinking hearts. ... the fall lines were still in complete and dresses clung stickily to her arms and shoulders when ... e tried them on. There was literally Irma told the exhausted clerk not a decent thing in town. She ate a peevish expensive lunch and went to keep her appointment with Dr Freeman.

Dr Freeman had an emergency appendectomy and he kept her waiting almost an hour. She walked into his office trembling with nervousness and anger.

It was almost five when she came out and she called Blake peremptorily.

"I'm at Dr Freeman's" she said "and I'm completely exhausted. I wish you'd come for me right away."

"Why of course." There was ... concern in his voice. "Do you mind coming to the sidewalk in about ten minutes so I won't have to park?"

She had to stand on the sidewalk almost three minutes and that irritated her still more.

"It's next to impossible" she said when she was seated beside him "to go along with one car."

His mouth was set. He wouldn't quarrel with her he swore. It was too degrading. Irma seemed to relish a good rousing battle. It stimulated her like a drink of whisky. But it left him sore and embarrassed and ashamed to meet her eyes. He said impatiently:

"You have to take your choice. And her car and no long vacations or vacations and no car. It's the best I can do."

"I have to have the change" she said plaintively. "Dr Freeman says the sooner I can go to Florida the better it will be for me. He says I'm in a rather serious condition." Her voice shook.

Blake looked swiftly and soberly at her. "What do you mean?"

"Nothing organic" she said with unwonted reluctance "but he says I'm terribly on edge."

Blake was ashamed of the way his heart lurched within him. On edge meant nothing save that Irma was justifying her departure a few months hence. She didn't suspect that the departure needed no justification in his eyes.

And beside him Irma was silent withdrawn into herself. When you were forty and your husband was thirty three it was impossible t... confide in him until you had to. Pride and hopelessness kept you from confessing the truth.

With the coming of fall Carol's leisure hours began to fill. Every one was recovering from the inertia of summer and planning parties. Her friends were generous about including her in their evening activities and the fact touched her immeasurably. She resented her inability to repay them and said so frankly.

Cornelia laughed at her. "We wouldn't ask you if you didn't contribute something don't overlook that."

But she wanted to contribute more than her presence and felt that she could not afford it. And then as if he had guessed her need Blake informed her one day that her salary beginning October first would be a hundred and twenty five dollars a month.

She could hardly thank him. "Are you sure I'll earn it?" she asked dubiously.

His tone was dry. "I'm not in business for my health. You'll be worth more than that in time and I'll pay you more just as soon as business warrants it." And then the veneer of impersonality cracked and Blake's eyes were looking at her.

"Have you—been getting along all right?" he asked awkwardly.

"Quite." There was a vibrant pause. He had a trick she noticed of concentrating so intently that he looked first at one of your eyes and then at the other. "Have you?"

"Quite."

There were more questions clamoring to be asked but he stifled them. She gathered up her latest assignment and left his office.

Porter Murray had come back too and to her astonishment had called her immediately.

"Did you miss me?" he demanded fondly.

"I've been wasting away. I thought you'd forgotten me."

"You liar. I couldn't."

"Well you never even sent me a post card."

He chuckled. "Since that's the way you feel when can I see you?"

"Never."

"I'll be around at seven tomorrow. We'll have dinner—first."

She gave up and laughed at him. "All right. I'll eat an expensive dinner and take carfare along with me."

* * *

His pleasure at seeing her the next evening astonished and flattered her. When he had ordered a gourmet's meal she said frankly:

"All this attention is quite a boost to my ego but with the town to choose from why did you pick me?"

It wasn't a bid for compliments; it was honest curiosity because the city was full of girls who had beauty and money and leisure. And Porter was quick enough to recognize it as such. He knit his regular brows.

"I'll be darned if I know. There at the beach you were the only girl I could remember. The thing I like best about you is the way you make me feel."

She knew what he meant. "I see. And how do I make you feel?"

"Oh very witty and charming. And I'm not afraid you'll miss the point of my witticisms. True you think I'm useless and frivolous but you reconcile yourself to it."

"Nice of me" she said dryly. "Now tell me about your trip. I know you're bustin to."

"I'm not either."

But he told her frankly and racily during the rest of the meal. Stories culminating in an account of how someone named Whitefield had called Buckingham Palace and demanded the ear of King George himself. Whitey had read in the newspaper that His Majesty was suffering from a severe cold and he knew an infallible remedy.

It took four calls but in the end he had actually secured the ear of the king himself and been courteously thanked.

Driving home from the theater Porter stopped the car in the shadow of the Sherwood. She looked inquiringly at him.

Carol gets an important request from Ellen tomorrow

Your Health

BY DR. R. S. COPELAND

Pneumonia

THERE is an almost universal belief that pneumonia is a disease of the winter months. It is true that it is most common during cold, damp and changeable weather, but it also occurs during the summer months. Indeed, it comes at any season when persons are careless about their health.

Pneumonia often follows neglect of a simple cold or cough. At this time of the year most persons are careless about the summer cold. They often neglect to care for it and rarely consult with a doctor about it.

If you are in poor health or recently have recovered from a severe cold, avoid outdoor bathing on cold or cloudy days. Never allow the body to become chilled. Let me warn you about lying on the cool ground or on any damp surface after you have become overheated from the rays of the sun. Chilling of the body lowers the resistance and encourages pneumonia.

Never Neglect Cold

For these reasons I would advise every one never to neglect a simple cold at this time of the year, or for that matter at any time of the year. Bear in mind that pneumonia is a serious disease. Early attention is especially important.

If you complain of a severe cough and notice any sensation or pain in the chest, it is wise to consult a physician immediately. Avoid the use of home remedies and patent medicines.

Guard your health and protect yourself against colds and infections of the upper portion of the breathing organs.

Pneumonia always has been recognized as one of the most dangerous diseases of mankind. It affects young and old, rich and poor, alike. Certain forms of it are especially serious.

Whenever possible, a victim of pneumonia should be removed to the nearest hospital. This is advised because certain facilities are available in a hospital that cannot be obtained at home. For example, serum injections may be necessary or oxygen may be required.

KEROSENE DRINK FATAL

By The Associated Press

BUCYRUS O Aug 27—Mary Alice Gies one year old daughter of Mr and Mrs John Gies of nearby New Washington died today of the effects of drinking kerosene Saturday

HAPPY RELIEF FROM PAINFUL BACKACHE

Caused by Tired Kidneys

Many of those gnawing nagging painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way

The kidneys are one of Nature's chief ways of taking acids and wastes out of the blood A healthy person should pass about 3 pints a day and so get rid of more than 3 pounds of waste matter

If the 15 miles of kidney tubes and filters don't work well waste stays in the body and may become poisonous It may start nagging backaches leg pains loss of pep and energy getting up nights swelling puffiness under the eyes headaches and dizziness Don't let it lay you up

Ask your druggist for Doan's Pills—used successfully by millions for over 40 years They give happy relief and will help to flush out the 15 miles of kidney tubes Get Doan's Pills

Large exhibits of cars and [illegible] are among the displays answered by dealers Fancy baked goods [illegible] sewing and 4 H club exhibits are the finest displayed in years board members reported Additional stock pens were constructed to accommodate the large number of stock displays

Girls Display Garments

Features in the evening program included a style show by girls of 4 H clubs of the county the girls wearing garments of their own design

Floyd Weaver of Xenia was the winner of first place in the high horse pulling contest held Wednesday afternoon Others placing were George Hinton of Commercial Point O Jeffers Shaffer of Greenville O Mr Denniston of Ansonia Maurice Collins of Hamlin O O F Winch of Galion and John Trough of Millersburg Ind

Mr Davey opened his talk by blaming the Ohio senate for the lack of a milk control act in Ohio

"I know" he said "that you people are interested in this question The senate turned down our program They have been very negligent in their duty down there on stilts or something The only way you folks can get any action is to send a favorable legislature down to Columbus at the next election"

Hits at Sales Tax

Continuing he defended his proposal to repeal the sales tax on foodstuff "We called on our friends" he said "and they rallied to the grand crusade for repeal with 650 000 signatures" He declared that the repeal would not force any new taxes nor would it hamper the state's educational system

"I do not promise that there will be no new taxes" he asserted "but I believe we can get along without them"

The governor charged his opponent John W Bricker with having instructed every Republican in the house to vote against his proposal to repeal the tax which he added they did

He reiterated his attacks on Ohio State university by declaring that "We took $115 000 of your money which they would have spent if they had had it There is a great gimme army down in Columbus that is always trying to get something from the government Some one is needed to guard against this"

At this point he cited savings in state government for which his administration takes credit These include he said $67 000 through abolition of an Ohio office in Washington $ 000 rental on a warehouse and $35 000 through rearranging state office building space He said the total saving so far had been $8 000 000

Introduced by Hartmann

Mr Davey was introduced by Dr H H Hartmann county executive committee chairman

Following the governor's talk the men's pulling contest between rural communities was held and Likens was the final winner of the fair board's $50 first prize

Second prize went to Polk township third to Whetstone and fourth to Vernon

Preliminary winners were as follows Liberty defeated Holmes Likens defeated Sandusky Chatfield defeated Dallas Bucyrus defeated Auburn Polk defeated Jackson Vernon defeated Liberty Likens defeated Chatfield Whetstone defeated New Washington Polk defeated Bucyrus township Polk defeated Whetstone Likens defeated Vernon

Ten men were used on each team and County Agent Russell L Miller acted as referee

Wesley Beats Lee St. As Little World Series Opens

STREETERS HELD TO SIX SCATTERED HITS BY WOODY WALTERS

Losers To Play Shovel Nine Monday Night in Second Round

BY CHARLES HOSTETLER
Marion Star Staff Writer

Turning back a strong Lee Street aggregation Wesley's hard fighting softball club scored a 5 to 3 victory in the opening round of Marion's annual softball classic—the Little World Series at Lincoln park last night.

Playing before a small but enthusiastic crowd the Wesley club came up from behind a 2 to 1 score at the start of the [illegible] inning to [illegible] frame with a 5 to 2 [illegible] Lee Street's desperate [illegible] rally was stopped after only one run had crossed the plate and the undaunted Wesley outfit emerged with its two-run margin of victory.

Enter Second Round

By winning the series opener Wesley, flag bearer of Sunday school league No 2 moved into the second round of the three cornered fight for the 1936 city championship. Marion Steam Shovel's Commercial league team the third contender will get its first taste of series competition against Lee Street Monday night. With the double elimination program each team must be defeated twice before being ineligible for further competition.

Woody Walters youthful Wesley moundsman held the Streeters to six scattered hits. In addition to a brilliant pitching performance he starred at the plate. In three times at bat he smacked out two singles and received a pass to first. Except for a brief trace of nervousness in the final frame Walters pitched a cool and smooth game.

Jimmy Kunkle Lee Street's centerfielder, nicked Walters for two safe hits both going for home runs. It was Kunkle who opened the seventh stanza with a hit which traveled through the short stop and passed the center and left fielders untouched. Kunkle's homer evidently unnerved Walters for the moment and he walked Crabtree.

Grounder Final Put Out

K Conkle followed by reaching first on a fielder's choice and W Conkle walked. With two runners on base and but one out Walters fanned Marshall and Richards hit a grounder to second base for the final put out which ended the game.

Lee Street opened the scoring in the second inning when Jimmy Kunkle connected for his first circuit clout and scored Anspaugh who had walked. Wesley knotted the count in the first of the third with the aid of two hits and two errors.

Wesley had one out as W Walters singled and advanced to third when F Walters took an extra base as he hit to second base and K Conkle overthrew first base. C Stelzman was out at first on a grounder to the short stop and Robert Walters the following batter clipped out a single to score Wesley's initial run. The other run was tallied as C Robinson hit to third and was safe on Marshall's error.

The count was knotted until the sixth when with two out Wesley tallied two runs. O Walters doubled and scored on Smith's hit to centerfield when Kunkle fumbled the ball. Smith reached third on the hit and throw when Marshall missed tagging him as he came in to the base. W Walters singled to score Smith and the side was retired with F Walters pop fly to the shortstop.

Wesley's fifth run came in the first of the seventh when the seventh batter Robert Walters clouted a homer. Benny Crabtree who pitched an excellent game for the Lee Streeters allowed seven hits struck out three batters and issued but one pass to first. Fielding errors cost the Lee Street team its early lead and the heavy bats of the No 1 pennant winners couldn't regain the advantage.

CUBS MAKE GAINS IN DRIVE FOR FLAG IN NATIONAL LEAGUE

Stand Only Three and One-Half Games Back of Giants' Pace

By The Associated Press

Can the Cubs repeat? That's as big a question mark in the red hot National league race today as the ability of the Giants to keep up their sizzling pace.

Back home from the most disastrous road trip of the campaign the pennant holders are showing definite signs of snapping out of their doldrums.

Today they're in third place 3½ games off the Giants pace and a game back of the crippled Cardinals. They've taken four straight now winding up with a twin win over the Phillies yesterday 4 2 and 7-4 to give them a record of five victories in their six starts since returning to Wrigley field.

The injury-riddled Cards took their third straight beating at the hands of the Bees Boston, 10-3 to the seven hit pitching of the veteran Guy Bush.

This setback boosted the Giants pace-setting edge to 2½ games as they nosed out the Reds 6 5 with Carl Hubbell turning in his 19th pitching victory.

Sharing the headlines with the bitter National league warfare were these developments.

President Sam Breadon announced the re-signing of Frankie Frisch to pilot the Cardinals in 1937 a move apparently intended to have a psychological effect in shaking the Gas House gang out of its collapse.

Wes (Bad Boy) Ferrell returned to action for the Boston Red Sox for the first time since his suspension and $1,000 fine a week ago for walking off the diamond without orders. He limited the Tigers to five hits for a 7 0 triumph.

Rookie Eddie Wilson freshman outfield star of the Dodgers suffered a possible skull fracture when one of Mace Brown's slants hit him on the back of the head in the game with the Pirates. Despite the injury handicap the Brooklyns belted the Bucs 10-3 for the second straight day.

Vernon Kennedy pitched a four hit game as the White Sox slugged the Athletics 6 3 with the aid of Zeke Bonura's two homers.

The lowly St Louis Browns again took over the job of chief batter of the American league's leaders the Yankees by pushing four runs over in the fifth inning to sew up a 5 2 win.

Singing Joe Cascarella chalked up a five hit pitching performance to give the Senators a 11 1 win over the second place Cleveland Indians—the Tribe's second straight loss to the Nats.

DAYTON TRIMS GREYS

By The Associated Press

COLUMBUS O Aug 27—Ducky Holmes determination to give the Dayton Ducks the championship of at least one half of the Mid Atlantic season may come to something. The Ducks cut Zanesville's lead to a game and a half last night by defeating the Greys 10 to 5. Akron meanwhile jounced Charleston's hopes with a double extra inning defeat 8 to 7 and 7 to 6. Portsmouth and Canton divided a double header the Panthers winning the first 6 to 5 and the Terriers the second 10 to 3. Huntington and Johnstown were rained out.

THE SPORT SPOTLIGHT

By CHARLES HOSTETLER

Family Matter

The Walters brothers are the backbone of the Wesley team that played no small part in the No 2 league pennant winners' victory over Lee Street in last night's opening round of the Little World Series. The four brothers F Walters-shortstop, Robert Walters-second base, O Walters-first base and Woody Walters-pitcher supplied plenty of punch to aid Wesley in the 5 to 3 victory.

An uncle of the four players Ray Walters is a regular catcher of the team. The five members of Wesley's aggregation received credit for excellent fielding and batting performances last night. Collectively they were credited with six of Wesley's seven hits and scored four of the team's five runs. In the field they registered 15 put outs and three assists.

Mascot on Job

Howard Stephenson of 412 Avondale avenue diminutive 12 year old mascot of the Lee Street team was on the field last night. He was retrieving bats and supporting his team with an unusual display of enthusiasm. A little downcast over the outcome of the game he is hoping that Lee Street will score its first series victory by winning over Marion Steam Shovel's Commercial league team next Monday.

Kunkle Gets First Hit

L H McGhee Wesley manager and Johnny Marshall Lee Street manager flipped a coin to decide which team should go to bat first. McGhee won the toss and F Walters the first batter in the 1936 series was safe on a fielding error at third base. Jimmy Kunkle's homer for Lee Street in the last of the second frame was the first hit of the game while W Walters Wesley hurler recorded the first strikeout by fanning K Conkle the Streeters lead off man.

May Challenge Winner

Leo Keller manager of Axe Funeral Home's All Star club the surprise team of the floodlight league was among those on the sidelines watching the game. The Axe team tops the All Star loop and last week reached new heights by defeating the visiting Texas Rangers 3 to 2 in an exhibition game.

Manager Keller it has been said plans to challenge the Little World Series winner in the event that his team completes its remaining two league games without a defeat.

Officials

Umpires for the opening game included H Williams behind the plate M Bechtle at first base and G Stoner at third. At the start of the game shortly after 6 15 o'clock Williams was assisted by Bert Curtis who officiated on the bases until the arrival of the regular officials.

The Brewers virtual [illegible] of first place finished their regular home season yesterday in a double header with the Kansas City Blues and the semi-official check up revealed that the [illegible] had played before a total attendance of 275,191. A year ago a seventh place club performed before 117,000 less than half of this year's turnout.

Milwaukee lost both ends of the final show 7 to 2 and 8 to 6 but the Brewers finished the day 11 games in front of the Blues who finally shoved St Paul into second place.

St Paul dropped a half game behind Kansas City in taking its third straight beating from Minneapolis 7 to [illegible]. While Arch McKain was holding the Saints to seven hits the Miller sluggers laid down a barrage of six home runs off Glenn Spencer and Bill Cox.

Indianapolis preserved its scanty margin over Minneapolis in the battle for fourth place by defeating Louisville 6 to 5 in a night game.

Toledo outlugged Columbus in the first game of a night double header 12 to 11 but the Red Bird came back in the seven-inning afterpiece for a 3 to 2 victory on Mike Ryba's five hit pitching. Ryba won his own game by singling home Chervinko and Anderson in the fourth.

The [illegible] [illegible] who stepped into the vacancy made when Gabby Gallagher moved from Marion clubbed the ball for a .426 average until he was forced from the lineup several weeks ago.

Although there were several changes in other positions near the top Anderson remains in first place with 20 hits in 47 trips to the plate. Johnny Marshall the Tigers third-sacker moved into the second spot with a .417 average. Marshall together with E V Shoup and Francis Robbins have been staging a three way battle for second honors. Figures based on the 17 games played to date place Robbins third with an even .400 per cent and Shoup fourth with a .359 average.

The Steam Shovel aggregation will be out for another victory Sunday afternoon when the team entertains the strong Bellevue nine at the Lincoln park diamond. The game is set for 2 30 o'clock.

OH, EVERYTHING WILL BE ALL RIGHT!
YOU'VE GOT TO STOP WORRYING ABOUT NOT WORKING, JOHN! YOU'VE ALWAYS TAKEN GOOD CARE OF US— AND BEFORE YOU KNOW IT— THINGS WILL BE FINE FOR YOU!
I'M NOT WORRYING, SARAH— I'LL PROBABLY MAKE A MILLION DOLLARS— AND THEN WHAT DO YOU THINK I'LL DO?
I'LL RAISE YOUR ALLOWANCE A DOLLAR AND A QUARTER A WEEK!
GO 'LONG WITH YOU, JOHN!

Daily Pattern for Home Use

BY ANNE ADAMS

IF YOUR WEIGHT'S A BIT "OVER" MAKE THIS SLIM O'LINE MODEL

If your weight's just a bit more than you'd like it to be—and you crave a flattering, up-to-the-minute frock, choose Anne Adams' youthful wardrobe "tonic"—Pattern 4161! You'll slim down ample hips with the trim, well cut skirt, and conceal extra pounds with its becoming rolled collar and dainty shirred vestee. Best of all, this simple pattern may be run up in a minimum of time, for the sewing instructor is one of the easiest to follow. This frock would be smart in faille silk, cotton-appearing wool or a new Winter sheer. Contrast the vestee in lustrous satin or synthetic.

Pattern 4161 is available in sizes 16, 18, 20, 34, 36, 38, 40, 42, 44 and 46. Size 36 takes 3¾ yards 54-inch fabric and ½ yard 39-inch contrasting. Illustrated step-by-step sewing instructions included.

Send Fifteen Cents (15c) in coins or stamps (coins preferred) for this Anne Adams pattern. Write plainly name, address and style number.

Be Sure To State Size.

Send for your copy of our New Anne Adams Pattern Book, just out. See the latest Fall fashions, fabrics, accessories! Learn how easily you can have smart new frocks, a dashing new coat or suit, blouses, skirts, housedresses. Models to flatter every type and age—from tiny toddler to matrons longing for that slim and youthful look! Book Fifteen Cents. Pattern Fifteen Cents, Twenty-Five Cents for both when ordered together.

Address orders to The Marion Star, Pattern Department, 243 W. 17th St., New York, N. Y.

POPEYE, YOU LIKE TOAR, EH? YOU MY DEAR, SWEET PAL FROM LONG AGO, AIN'T WE?
I SUSPOSE SO-
I KNOW YA LIKES ME. TOAR - BUT DON'T NEVER GRAB ME AN' KISS ME LIKE YA DONE YESTERDAY.
TOAR JUST WANT TO SHOW HOW MUCH HE AFFECTION DEAR GUY, YOU!
SOMETIMES YOU MAKE TOAR SO MAD I 'GOING' KILL YOU! HOW MUCH I GOT TO TELL YOU, TOAR JUST DUMB JUNGLE MAN? I GOT NO SENSE - SAVVY, YOU DUMBHEAD!
TOAR DIE FOR YOU, AND WHEN TOAR CALL YOU DEAR, SWEET, HONEY PAL HE TRY SHOW FRIENDSHIP FROM ONE MAN TO ANOTHER GUY
OKAY, TOAR, I UN'ERSTAND - IT'S JUS' YOUR WAY OF TELLING ME YOU THINK I'M A GOOD SWAB. OKAY, PAL, WE'RE FRENS
OH, FINE!
WELL, SEE YOU LATER, SUGAR-BOY

JUDY, MAYBE THIS AD I PUT IN THE PERSONAL COLUMN WILL LOCATE EZRA FOR YOU:-"EZRA POOCHEY, PLEASE COMMUNICATE WITH CASPER. URGENT."
OH, I HOPE HE SEES THAT, CASPER.
A FRIEND OF MINE WHO'S A RADIO ANNOUNCER IS DOING THIS FOR ME.
EZRA POOCHEY IS REQUESTED TO COMMUNICATE WITH CASPER AT ONCE.-
OH, THAT'S JUST DANDY!
MAYBE THAT WILL DO THE TRICK, JUDY... WE'LL HOPE FOR THE BEST, ANYWAY...
IF EVERYTHING ELSE FAILS, MAYBE A LITTLE SOMETHING IN HIS HEART WILL TELL HIM THAT JUDY WANTS HIM BACK!

HONEST, MR. BULLION, I THINK YOU'RE THE NICEST MAN IN THE WHOLE WORLD - YESTERDAY YOU GAVE ALL THE POOR KIDS ALL THE APPLES THEY COULD CARRY
AN' TODAY YOU'RE SENDING ALL THE REST OF THE APPLES TO SICK FOLKS IN HOSPITALS
WELL, ANNIE, YOU AND I COULD NOT EAT THEM ALL NOW, COULD WE?
BUT THE GARDENERS SAID YOU COULD SELL 'EM - AND MAKE LOTSA MONEY
OH, MONEY IS NOT THE ONLY ANSWER TO A GOOD INVESTMENT
WHEN THE APPLE ORCHARD WAS IN BLOOM I RECIEVED A MILLION DOLLARS' WORTH OF BEAUTY AND FRAGRANCE - AND THEN ANOTHER MILLION DOLLARS' WORTH OF HAPPINESS IN WATCHING THE HAPPY KIDS CARRYING THE APPLES AWAY

STOCKS STAGE MAJOR RALLY

Climb Fractions to Five Points Under Stimulus of Better Business

By The Associated Press

NEW YORK, Aug 27—A recovery wave today swept stock market prices up fractions to 5 or more [illegible] One or 2 issues got up [illegible]

Stimulated by generally favorable business and industrial news steels [illegible] motors and specialties were [illegible] performers There was late profit taking [illegible] this was absorbed [illegible] the majority of cases [illegible] much difficulty The close was [illegible] strong Transfers approximated 1 [illegible]000 shares

Among the outstanding gainers were U S Steel Bethlehem Crucible Steel Youngstown Sheet & Tube Santa Fe N Y Central Southern Pacific Northern Pacific Delaware & Hudson Lackawanna, J I Case Westinghouse Sears Roebuck Montgomery Ward Chrysler General Motors Mesta Machine Deere Ward Baking preferred Vanadium and Douglas Aircraft

Sugar shares such as Fajardo Great Western South Porto Rico and American Crystal moved up briskly on satisfactory earnings estimates National Distillers and Schenley firmed coincident with reports whiskey prices may be raised because of higher grain prices

Bonds firmed with equities Foreign currencies were quiet Wheat at Chicago ended up ¼ to [illegible] of a cent a bushel and corn was [illegible] to 1— lower

Speculative forces continued to keep one eye on foreign affairs and the other on domestic business trends

Those interested in merchandising stocks studied with much interest the six months statement of Sears Roebuck showing a profit increase over the like 1935 period of around 70 per cent

The French franc was unchanged at 6.58 7-16 cents at the beginning of foreign exchange transactions and sterling was up ¼ of a cent at $5.03¼
